Injection Blow Moulding Machine & Mould

Http: //ibm.en.alibaba.com

Http: //www.cn-ibm.com

⚡ Our company has absorbed the advantages of one-step blow molding machinery at home and abroad, to bring customer a higher efficiency, more energy-saving, and more stable machine, you only need to provide product drawings or samples, then we will provide you one-stop service including machine, mold, auxiliary equipment, after-sales, training, etc.

One-step Injection Blow Molding Machine for PET,PC,PCTG,PP bottles

⚡ Technical Features of IBM Series One-step Blow Molding Machines:

1. After the preform injection procedure finished, blow the bottle directly. Do not need to pack, store, transport, re-heat or do any other procedures for the preform.
2. No any flashing on the bottle mouth and bottom, no need secondary processing, to achieve perfect appearance; save the labour cost.
3. Adopt high-speed ejection and single cylinder structure, with more higher ejection speed, more accurate control, more stable weight and sizes.
4. Adopt the temperature adjustable station, which can apply to complicated shape, difficult forming products.
5. Adopt servo motor, maximally reduce energy consumption.
6. Wide range of applications, such as foods, cosmetic, pharmaceuticals, commodity, water bottle, milk bottle, bulb, etc.
7. Less land occupation, simple management, high automation level, less labor force
(1 person can control more than 3 machines).

Shanghai Xujie Automation Machinery Co., Ltd

Plastic Bag Automatic Pagination Labeling Machine

Automatic Bottle Neck and Round Labeling Machine

Automatic Double Sides Labeling Machine

Automatic Liquid Filling and Linear Capping Machine

Shanghai Xujie Automation Machinery Co., Ltd is a scientific manufacturing enterprise, combined of R&D, producing, sale and service. We mainly engage in the business of researching and developing automatic producing equipment control system, and packaging equipments manufacturing.

Mainly independent products:

- Manual/Automatic Adhesive Labeling Machine
- Shrink Sleeve Labeling Machine
- Capping Machine
- Glue Labeling Machine
- Manual/Automatic Liquid/Paste Filling Machine
- Automatic Filling Line

Order for injection molding machine, a free gift of a pair of mold

Our company now launched a variety of payment scheme, the minimum payment of 30%, the longest installment payment time for 3 years.

HKD machinery manufacturing co.,Ltd is located in China's largest port – ningbo. Company predecessor is ningbo industry equipments group Corporation subordinate units, is a high-tech enterprise specialized in manufacturing injection molding machine, focused on research and development of injection molding machine more than 20 years. we have experienced technical team, product design integration in Western Europe and Japan advanced technology, combined with exquisite processing technology, the main production mould clamping force of 100 t – 2200 t high precision injection molding machine, has the strong rigidity, good performance, fast response, high efficiency, energy saving, durable etc, series injection molding machine is suitable for processing high precision injection molding products, has the incomparable cost performance.

Our company is a collection research and development, production, sales and after sales for the integration of plastic packaging machinery and plastic hollow products professional manufacturers. The main business scope are: automatic plastic bottle blowing machine, PET bottle blowing machine series, high separation extrusion machine, bottle blowing machines, blow molding mould and plastic hollow products. Product design is reasonable, the modelling beautiful generous, stable and reliable performance, with the honest and trustworthy, high efficiency and energy saving, high quality and low price competitive advantage, won the favor of customers, products are exported to the country more than 20 countries, well received by customers.

NEWLINE MACHINERY

Suzhou Newline Machinery Co., Ltd., invested by Jiangsu Guotai Int'l Group, is a high-tech enterprise that has absorb the foreign advanced technology and experience, in strict accordance with the national GMP requirements of working for research, design, manufacture and sales in medicine and food packaging machinery.

We specialize in viscous liquid filling/capping 2in1 machines, water/juice washing/filling/capping 3in1 machines & water treatment. We can also develop and design to conform to your needs.

We offer the best cost-effective and quality equipments.

With years of effort, our products have been exported to Asia and Africa.

WASHING/DRYING MACHINE

Rotary Volumetric Filling/Capping Machine is widely used in Pharmaceutical Industries, such machine can also used for Food, Oil, Chemicals & other Viscous Liquid or Syrup filling applications.

The filling Principal is Volumetric.

TECHNICAL SPECIFICATION

MODEL	Filling heads	Capping heads	Dimensions (in mm) (L x W x H)	OUTPUT (BPM on 60ml bottles)
NLMSM8-4	8	4	2000x1400x2000	50
NLMSM12-6	12	6	2000x1400x2000	70
NLMSM16-6	16	6	1900x1600x2000	100
NLMSM24-8	24	8	2400x1900x2000	150
NLMSM32-10	32	10	3000x2300x2000	200

WASHING/FILLING/CAPPING MACHINE

The machine is a full automatic 3in1 washing-filling-capping unit, widely used for all kinds of no gas, no viscous liquid, such as Juice, Oil, Vinegar, wine, mineral water & pure water.

TECHNICAL SPECIFICATION

MODEL	Washing/ Filling/Capping heads	Motor power (kw)	Dimensions (in mm) (L x W x H)	OUTPUT (BPH on 500ml bottles)
NLMW16-12-6	16-12-6	2.2	2400x1650x2000	3500
NLMW18-18-6	18-18-6	3.0	2600x1920x2000	7000
NLMW24-24-8	24-24-8	3.5	3100x2300x2000	12000
NLMW32-32-10	32-32-10	5.5	3800x2800x2000	15000
NLMW40-40-10	40-40-10	7.0	4600x2800x2300	18000
NLMW50-50-15	50-50-15	10.0	5400x3300x2500	22000

TAIZHOU KEFEI RUBBER-MACHINE CO., LTD

Taizhou Kefei Rubber-Machine Co., Ltd Sample List locates High-tech Industrial Park of Taizhou City, Jiangsu Province, covering an area of 20,000 square meters. Currently, we are the largest professional pelletizer manufacturer in China. LQ25-2000 series pelletizer is the accessory product for double(single) screw extruders, applying in water-cooling strand pelletizing for all kinds of plastic. Annual output is about 2,000 sets. The company supplies cost-effective and high quality machines for hundreds of plastic extruder manufacturers at home and abroad.

SHIJIAZHUANG ZHONGSHI TESTING MACHINE CO., LTD

► About us

As a professional manufacturer of non-metal testing machines, Shijiazhuang zhongshi testing machine co.,ltd was established in 1999, it's a high-tech company integrated by R&D, manufacturing, marketing, and relative service as well.

Plastic&rubber universal testing machines

Electron universal testing machines
Pendulum impact testing machine
Melt flow rare testing instrument
HDT&Vicat softening point temperature testing instrument
Ventilated oven
Low-temperature thermostat

Water-saving system professional testing machines

Automatic property sprinklers test system
Mitting-pipe/Emitting-fillet/Micro-sprinkler system integrated testing system
Emitting pipe (fillet) pull out resistance testing machine

Plastic inspection chamber testing machines

Pressure testing machine
Falling Mass impact testing machine
Negative pressure testing machine

Plastic pipes system performance testing machines

Ring-stiffness testing machine
Hydrostatic pressure testing machine
Hot&cold water cycling testing machine
Creeping ratio testing machine
Falling mass impact testing machine
Thermoplastic valves leakage testing machine

Plastic film testing machine & Milling machines

Patent
NO.:ZL 2011 2 0384148.1

Plastic inspection chamber pressure testing machine

It is used for testing mechanical properties of the inspection chambers. It can take load test for the chamber body and ring-stiffness test, lateral compression test. It accords to BS EN13598.

Patent NO.:zl2013 2 000 5071.1

Emitting-pipe/Emitting-fillet/ Micro-sprinkler system integrated testing system

Use:
It is used for testing resistance to internal pressure determination of the plastics pipes, fittings and valves. It accords with ISO1167, ISO9080, and ASTM D1598

XGY-D Plastic Pipes Hydrostatic Pressure testing machine

Use:
It is used for testing resistance to internal pressure determination of the plastics pipes, fittings and valves. It accords with ISO1167, ISO9080, and ASTM D1598

HDT&Vicat Softening point temperature Tester

It's used for testing the HDT and vicat softening point of plastic hardrubber and some other non-metallic materials. It accords to ISO2507 ISO75, ISO306.

TLD Electron Universal testing machine

Use:
It's used for performing tension, compression, bending, shearing, peeling and tearing tests of non-metal materials and compound materials. It accords with ISO5893 ISO7500-1, ASTM D638, 695,790

Melt flow rate testing instrument

It's used for measuring the MFR and MVR of thermoplastic polymer. It accords with ISO1133

16-cavity injection blow mold

24-cavity injection cap mold

Liqi is a company dedicated to the manufacture of blow molds, injection blow molds and injection molds for plastic packaging bottles and caps. The experience acquired throughout the years have led our company to be one of the main suppliers to internationally known brands.

We are capable of:

- > 450 molds each year.
- > main facilities from Germany, Japan, Switzerland. main molding machines Totally 45 sets from 55 ton to 520 ton.
- > blowing molds, injection blowing molds & injection molds, multi-cavity molds, in-mold-labeling molds.
- > GMP clean-room plant for health food and nutrition packaging parts production.

Liuyang Sanji Chemical Co., Ltd

Liuyang Sanji Chemical Co., Ltd is established in 2004, who is located in the world famous fireworks country-Liuyang city, which has convenient traffic-60 kilos from Changsha that is the capital of Hunan Province.

LiuYang SanJi Chemical Co.,Ltd is the professional manufacturer and sales of Crosslinking Agent TAIC,TAC,DCP,BIPB,Flame Retardant Agent APP,TBBA,BDDP,TCPP, Plasticizer DOP,DIBP,DBP,DBP and serial chemical additive, we have been in this industry for ten years.

Our crosslinking agent TAIC is used as cross linked modifier in PVC,PE,EVA and varied thermoplast.it is Typical using for polyethylene, polyethylene / chlorinated polyethylene, polyethylene / EVA, cross-linked polyethylene cable

and high-and low foaming products.

Crosslinked products can significantly improve the heat resistance,flame resistance,solvent resistance,mechanical strength and electrical properties.

Our manage tenet is defined as "Quality firstly, Credit uppermostly, Mutually beneficial" . we will always provide the lowest price but the newest technology、 the most handy transport、 the most flexible sales way and the best after-service, which would cooperate with customers to create future business resplendence! Welcome to visit and contact us to negotiate!

Changchun Jilin University Super Engineering Plastics Research Co.,Ltd

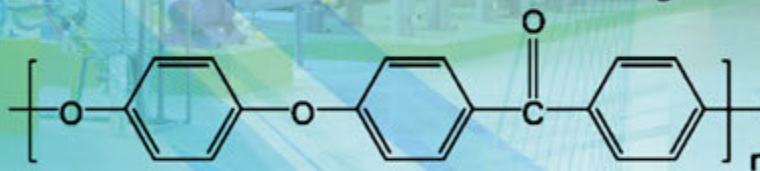

Company profile

Changchun Jilin University Super Engineering Plastics Research Co., Ltd(JUSEP) , founded in 2002, originated from Super Engineering Plastics Center of Research, State 863 project and Engineering Research Center of High Performance Plastics, Ministry of Education, is a high-tech share holding company specialized in the development, manufacture and distribution of high performance engineering plastics.

JUSEP possesses annual production capability of 100 tons of PEEK, 100 tons of PES specialty materials and modified plastics, which cover high thermo resistance grade super engineering plastics, reinforcement materials and alloys, super engineering plastics specialty resins, profile specialty materials, plastic ware and coating five series, 60 trademarks products. The products are widely used in defense industry, aerospace, automotive, petrochemical, electronics and medical fields.

Copolymer polyether ether ketone(**CoPEEK**)is a semi-crystalline aromatic polymer material,and the formula of the structure is as following:

Ultrafine Powder

Neat Resin Coarse Powder

Pure Resin Granule

CF Reinforcement Aggregates

GF Reinforcement Aggregates

Poly aryl ether sulfone resin is a non-crystalline super engineering plastic.At present,our company mainly has three types:**PES,PPSU and PSU**.

一九七五年创刊

Started publication in 1975

塑料版 (每月 15 日出版) Plastics edition (Published on 15th)

主要栏目

- ◆ 企业专栏
- ◆ 综述与专论
- ◆ 研究与开发
- ◆ 材料与应用
- ◆ 产品与设计

- ◆ 机械与模具
- ◆ 新技术与新产品
- ◆ 测试与研究
- ◆ 设备管理与维护
- ◆ 中外动态

- ◆ 工业自动化
- ◆ 环保节能与安全
- ◆ 企业管理
- ◆ 加工制造与过程控制
- ◆ 专利
- ◆ 标准

- ◆ Enterprise column
- ◆ Reviews and comprehensive review
- ◆ Research and development
- ◆ Materials and application
- ◆ Product and design

- ◆ Machinery and mold
- ◆ New technologies and new
- ◆ Test and research
- ◆ Equipment management and maintenance
- ◆ Home and abroad dynamic

- ◆ Industrial automation
- ◆ Environmental protection and energy saving and safety
- ◆ Enterprise management
- ◆ Manufacturing and process control
- ◆ Patent
- ◆ Standard

本刊参加了由中国化工信息中心、中国化工情报信息协会联合主办的“第八届全国石油和化工行业期刊评选活动”，在评比中获优秀期刊一等奖、广告奖和发行奖。

《橡塑技术与装备》是国内外公开发行的国内唯一以橡塑工艺技术、加工机械及新材料新产品为重点内容的专业技术期刊，对外发往东南亚地区及世界橡塑企业，科研机构及相关行业。国内发行遍及 30 个省、市、自治区的橡塑企业、科研院所、大中专院校及省市级图书馆。半月刊，定价 15 元/期，国际大 16 开，广告彩色胶印，封帧精美，是传递信息的桥梁，是介绍企业及其产品的窗口。

This magazine joined excellent publication chosen of National Petroleum and Chemical Industry jointly sponsored by China Chemical Industry Information Center and China Chemical Industry Information Association, and won second prize and award of advertisement.

This magazine is the only one R & P Industry magazine in China which reports for the Industry specially reporting the processing technology and equipment and product, materials issued with English contents and abstract domestically and abroad. This magazine is distributed in R & P enterprises, design and research institute and the some relative areas of South East Asia and the world. And it is also distributed in R & P enterprises, design and research institute, colleges and some libraries of more than 30 provinces and cities in China. This magazine is (semi monthly published) with 15 yuan per issue and international standard A4 edition with new style design and color offset printing. That is the best opening window for introducing your enterprises and products in China.
