PROPAK AFRICA 2019

ISSUE NO. 20

The Platform & Source to Plastic Industry

Patent No.: 201410285695.2

Rotary Double-screen Without Wire Mesh Filter

- 1. High pressure No leakage material
- 2. No fluctuation, No dead material
- 3. Automatic exhaust and automatic feeding

Push-pull Double-screen Without Wire Mesh Filter

- 1. Large filtration area
- 2. Waste discharge can be set as automatically control or manual control
- 3. It is more convenient to change screens and cost is lower

High speed PVC pipe extrusion line

latest high speed PVC pipe extrusion line which created by SKR machine.
Max.capacity 25tons/day

PE PPR pipe extrusion line

PVC wall panel extrusion line

SERVICES WE PROVIDE

- ★Analysis and consulting of the project
- ★Provide product information
- ★Turn-key project
- ★Training the operation for the customer
- ★Provide quality assurance for the product
- ★Door to door service
- ★Receiving customers visit and investigation
- ★Product lifetime service

COMPANY PROFILE

SKR machine has 20 years experiences of plastic extrusion machines since 1998, mastered core technology, good quality and service is the life of our company. It covers an area of 30,000 square in Foshan, Guangdong, China. With 100+ excellent staffs produce 1000+ units of plastic extrusion machines a year, cooperated with the customers from all over the world, your arrival is warmly welcomed! Hope to be your long-term supportive business partner.

► PET BLOWING MACHINE

Our PET bottle blowing machine is a completely new generation of linear blowing machine, distinguished by its high speed, low power and low compressed air consumption, featured by the excellent structure design, small space occupation, less noise and high stability, meanwhile conforms to national beverage sanitary standards. This machine symbolizes the highest level of national linear blowing machines. It is the ideal bottle making equipment for medium and large enterprises.

SMART PROCESS

Up to 45% less by heating
Up to 30% less by air

SMART MAINTAIN

Up to 20mins change mold
Up to 80% less maintain cost

SMART RESULT

Up to 99.9% qualified rate

STABLE

Real-time detection
Rejection rate below 0.3%

COST SAVING

Heating heads distance
38.1mm perform distance, saving
30% energy than conventional
oven

HIGH SPEED

Single mold 1800--2000bph
Four cavities 7000-8000bph

► 10BAR TO 40BAR AIR COMPRESSOR

Our main products including piston air compressor and screw air compressor, as well as air tank, air dryer, filters, etc.

Our preponderant product is 30bar and 40bar high pressure air compressor which is specially used for PET blow molding machine.

Advantage:

- 1) Our air system is combined air cooling high pressure air system
- 2) Our combined air system can economize the electric.
- 3) Our system will be easily use and maintained with low price cost.
- 4) Our air system is used widely in the world.

► BOTTLE CUTTING MACHINE

This cutting machine can be used for plastic cans, wine cups, pharmaceutical and daily used products. The suitable cutting material can be PE, PVC, PP, PET and PC, it can be connected to the on-line production. The maximum speed can reach 5000-6000BPH. In short, it will be ideal choice for your cutting solutions.

FAYGO UNION group is specialized in PET BLOWING MACHINE complete system(bottle system), and bottle cutting machine, sealing machine. (Can system)

About us

NINGBO BEILUN FULLY MACHINERY CO., LTD. is located in NingBo Beilun district, ZheJiang province, near to NingBo port. The company is specialized in developing, producing and merchandising plastic injection molding machines.

Currently there are four series of injection molding machines -- solar, lunar, lightning, and aurora. Fully machinery is featured by reliability, efficiency, precision, and energy saving, by applying industry advanced design, components, and control system.

Fully machinery is well known in domestic market, and export across countries in south america, south asia, south east asia, middle east asia, east europe, and africa. It is now recognized by our customers as a professional manufacturer with excellent quality, competitive price, and reliable services.

Striving for excellence and offering customized injection molding solution is our company vision. we welcome your valuable inputs for our sustainable growth.

GH Lightning series high speed injection molding machine is specially designed for thin-wall and IML projects with high injection speed, short cycle-time, energy-saving, stable and perfect molding.

光华(GH)系列是针对目前市场上需求广泛的超薄食品容器和餐具、医疗产品、导光板、记忆卡、深腔成型、模内贴标IML等制品，所研发的具有注射速度快、成型周期短、耗电量少、稳定性高等特点的薄壁高速专用注塑机。

HAIJIANG MACHINERY MANUFACTURING CORPORATION

Company Profile

Ningbo Haijiang Machinery Manufacturing Co., Ltd. - One of professional manufacturer for plastic injection molding machine from Ningbo, China. Have standard, injection blow, clear/mix color, BMC thermosetting injection molding machine etc. Factory started from year 1992, have more than 30 sales agent all over the world. Machine range shot weight: from 45grams to 40000grams, clamping force from 200KN to 30000KN. Machine series HJK/HJF have been sold all over the world, got many long time cooperation's clients. Set up agent in Russia, Brazil, Pakistan, Turkey, Iran, American, Nigeria etc. Provide professional and intimate service to local customer in related country. Provide customization machine as clients' required. Based on different plastic products, raw material and mould cavities.

- 1、High pressure No leakage material
- 2、No fluctuation, No dead material
- 3、Automatic exhaust and automatic feeding

Push-pull Double-screen Without Wire Mesh Filter

- 1、Large filtration area
- 2、Waste discharge can be set as automatically control or manual control
- 3、It is more convenient to change screens and cost is lower
