## Plastic Extrusion & Recycling Machine

### What we can do for you ?

Zhangjiagang Sevenstars Machinery Co., Ltd. is a group company. We devote ourselves to the development, research and production of plastic extrusion machine and plastic recycling machine.

Please feel free to contact us for further details. We are looking forward to forming a profitable business relationship with your company in the near future. We welcome you to visit our company at any time.

Zhangjiagang AiBiM Machinery Co.,Ltd located in the golden mile of Yangtze River delta,only 100km to Shanghai.With more than twenty years experience in manufacturing plastic machines.we are professional in making injection blow molding machine & blow molding machine&mould.

Our machine is suitable for general material PE PP PVC PETG PS EVA EVOH ABS TPV etc.with volume 5ml-3000L,Such as bottles,pot,toolkit package,automobile special-shaped hollow parts,medical apparatus and instruments,traffic facilities,large desktop edition,large pallet etc.Our machine received high prize by customer. All through these years,we have already exported many machines all over the world.

▶ 700型 自动气球机  
Model 700 automatic ballon machine

▶ 100型、1200型 自动气球机  
Model 1000、1200 automatic ballon machine

## 性能、特点

- 本机适应于生产PA、PET、镀膜复合膜
- 本机采用PLC控制系统，液晶触摸屏操作，伺服电机、变频调速、自动计数、自动温控、自动胀力。
- 自动电眼跟踪、自动放气嘴，操作方便自动化高，是制作各种形状的铝膜气球不可缺少的理想设备。

## Performance and characteristics

- The machine adapts to the production of PA,PET and aluminized composite film
- The machine adopts PLC control system,LCD touch screen operation,servo motor, variable frequencyspeed regulation,automatic counting,automatic temperature control,automatic inflation.
- The automatic electric eye tracking and automatic discharging nozzle,convenient operation and highautomation,is the ideal equipment indispensable make all kinds of aluminum flim balloons.

## About us

NINGBO BEILUN FULLY MACHINERY CO., LTD. is located in NingBo BeiLun district, ZheJiang province, near to NingBo port. The company is specialized in developing, producing and merchandising plastic injection molding machines.

Currently there are four series of injection molding machines -- solar, luner, lightning, and aurora. Fully machinery is featured by reliability, efficiency, precision, and energy saving, by applying industry advanced design, components, and control system.

Fully machinery is well known in domestic market, and export across countries in south america, south asia, south east asia, middle east asia, east europe, and africa. It is now recognized by our customers as a professional manufacturer with excellent quality, competitive price, and reliable services.

Striving for excellence and offering customized injection molding solution is our company vision. we welcome your valuable inputs for our sustainable growth.

GH Lightning series high speed injection molding machine is specially designed for thin-wall and IML projects with high injection speed, short cycle-time, energy-saving, stable and perfect molding.

光华(GH)系列是针对目前市场上需求广泛的超薄食品容器和餐具、医疗产品、导光板、记忆卡、深腔成型、模内贴标IML等制品，所研发的具有注射速度快、成型周期短、耗电量少、稳定性高等特点的薄壁高速专用注塑机。

### About us:

NanJing Zhuo-Yue Extruders Co.Ltd established in 2011. Our company is a professional manufacturer and exporter of Twin Screw Compounding Extruder. We specialized in the processing and marketing of mechanical equipment and parts, meanwhile, we also self-employed and agents of all types of goods and technology import and export business. We have over 50 employees, an annual sales figure that exceeds USD 1.5 million and are currently exporting 80 percent of our production worldwide. In virtue of our high quality products and outstanding customer service, we have gained a global sales network reaching Southeast Asian countries. Cooperated to achieve excellence.

### Hot products :

Plastic cup thermoforming machines with stacking robot  
Automatic cup/bowl counting & packaging machine

It is developed by advanced bottle blowing technology and has the advantage of high-level fulling automatic, stable working performance, simple structure but high working efficiency.

**Bottle blowing machine**

Water treatment machine is mainly used in Medicine, Chemical industry, Electro-plating, Domestic water, Food and beverage, Cosmetics, Bitter, Sea water desalination, Bioengineering, Experimental water and Micro-electronics.

**Water treatment system**

The machine is mainly applied to fill non-gas beverage which integrating with washing, filling and capping. It is suitable for polyester bottle and plastic bottle with all volumes and shapes. It is designed more compact and stable of controlling system, easy to operate and high automatically.

**Bottle Washing/Filling/capping 3in1 machine**

PE film shrink packing machine can apply to the full automatic packaging production line of bottle beer, beverage, pure water, fruit juice, dairy products, etc.

**PE film shrink packing machine**

It is using the high-speed equipment equivalent PLC, positioning module, servo motor and inverter, touch screen user-friendly operation.

**Sleeve labeling machine**

# LIUYANG SANJI CHEMICAL CO., LTD

Welcome to visit and contact us to negotiate!

LiuYang SanJi Chemical Co., Ltd is established in 2004, which is the professional manufacturer and supplier of Crosslinking Agent TAIC, TAC, DCP, BIPB, Rubber Antioxidant and other serial plastic additives.

Our crosslinking agent TAIC is used as cross linked modifier in PVC, PE, EVA and varied thermoplastic is Typical using for polyethylene, polyethylene / chlorinated polyethylene, polyethylene / EVA, cross-linked polyethylene cable and high-and low foaming products.

products can significantly improve the heat resistance, flame resistance, solvent resistance, mechanical strength and electrical properties.

Add: B1206 Central Park, Jinsha Middle Road, Liuyang, Hunan, China (410300)

Established in 1976, we are the first producer dedicating to solvent dyes for plastics in China. With some 40 years efforts, the company aims to provide customer-oriented solutions from his full range colorants with brilliant lightness, strong tinting strength, good light fastness and excellent heat resistance as well.

## Solvent Dyes for Plastics

Solvent Green 5

*100 Tons per year, major production base in China*

Solvent Yellow 93

*400 Tons per year, the largest production base in China*

Solvent Orange 60

Solvent Red 135

Solvent Red 179

*Total Capacity 400 Tons per year, the biggest manufacturing facility*

Solvent Blue 35

Solvent Blue 36

*1000 Tons per year, the biggest production line in China*

Solvent Red 196

Solvent Red 197

Solvent Yellow 145

*Total Capacity 100 Tons per year, the biggest production line in China*

## Invitation Letter of China International Recycling Plastics Exhibition

**Exhibition/Conference Venue: GD Modern International Exhibition Center · Dongguan · Guangdong**  
**Move in: 11th–12th, September, 2018**  
**Exhibition/Conference Time: 13th–14th, September, 2018**

In recent years, continuous investments into recycling resources have been booming all over the globe, among which 90% took place in China. China's market volume reaches 6 million tons. China is purchasing recycling materials from all over the world, and exchanges it by exporting capital, equipment, technologies, professionals and market. China is now both the world's largest recycling plastics market and the largest renewable plastics market.

So far, central government has made important instructions on environmental pollution by solid wastes and it is expected to embrace the implementation of major policies and regulations, thereby reshaping the production, circulation, consumption, and recycling of our industry and creating a brand new industry pattern.

On the 13th–14th September 2018, ChinaReplas2018 China Recycling Plastics Conference/ Exhibition will be held and shall focus on five major areas– “Southeast Asia Recycling Plastics Supply”, “Global Scrap Plastics, Procurement of Recycling Materials”, “The Plugging–ins between outbound Investments and Target Resources”, “Establishment of Global Operation Facilitation and Mutual Assistance Platform”, and “International New Technologies and New Equipment”. We shall take “Southeast Asia and Southeast Asia Recycling Materials Supply” as nuclear points, and specially invite industries representatives from modified plastics, pipelines, agriculture–plastics, weaving plastics, blown film, aluminum–plastics, cover plastics of electric wire and cable, plastics for electronic products and other lower stream users of plastics to visit our exhibition, through which, we aim to facilitating a direct cooperation between exhibition platform and exhibitors.

ChinaReplas2018 Exhibition will be hosted in an area of over 6,000 square meters, with 200+ exhibitors from home and abroad, recycling plastics suppliers, processors, buyers, government departments, technologies providers, equipment manufacturers, spares and parts manufacturers, industrial parks, social institutions, professional media, and visitors and professionals at lower stream of our industry from 25 countries will come to our exhibition, all together 6,000 people.

### Reasons for Choosing our ChinaReplas2018 China Recycling Plastics Exhibition:

- 1, 6,000 lower stream users and visitors make the best buying power: taking procurement facilitation as our mission, we gather users from our 16 areas at lower stream of our industry, i.e. modified plastics, pipelines, agriculture–plastics, weaving plastics, blown film, aluminum–plastics, cover plastics of electric wire and cable, plastics for electronic products, plastics for vehicles, construction films and plastics covers, plastic lumbars, foaming materials, color concentrate, heat insulating materials, photograph frames, and short fibers. We establish independent call center to send out invitations to visitors, inviting more buyers from specified areas to come.
- 2, 20+ professional associations, ≥30% overseas visitors, and the most international platform: our overseas exhibitors are mainly the recycling plastics suppliers and renewable plastics suppliers from the US, Europe, Japan, South Korea, Middle East, Southeast Asia, as well as visiting delegations from Southeast Asia.
- 3, Various professional forums, deep plug–ins, and clearer policy futures and industry development: 20th China's Recycling Plastics Conference, China Plastics and Environment Conference, and Products Oriented Conference on Placing Orders with better targeted plugging–ins and cooperation. At the same time, we shall focus and go deeper on important agenda issues of “new policies on plastics”, “standards of plastics granular”, “status quo of Southeast Asian industry”, “investment opportunities and risk control in Southeast Asia”, “our industry development and trend in Japan, South Korea, Taiwan Region, and Hong Kong”, and “way to internationalization”.

**Supervised By:** China's competent agencies; China Petroleum and Chemical Industry Federation

**Initiated By:** New Perspectives of Scrap Plastics

**Supported By:** China Synthetic Resin Association; China Scrap Plastics Association; PET Division of China Synthetic Resin Association; Beijing Chemical Industry Research Institute Co., Ltd.;

“Engineering Plastics Application” Magazine; plaschain.com; Division of Plastics of Bureau of International Recycling; Division of Plastics in ISRI – Institute of Scrap Recycling Industries Inc.; European Association of Plastics

Recycling and Recovery Organisations–EOPR; BVSE–Bundesverband Sekundärrohstoffe und Entsorgung; “Resources Recycling”, and “Plastics Recycling Update”.

**Organized by:** Beijing Guojia Jiye Information and Consultation Company Ltd.

**Contract:** 010–6266 5052 61227642

**Address:** No. 502, Unit 1, Building 5, Zhujiang Mall International, Changping District, Beijing.
