- High-Filling Masterbatch Equipment
- Color Master Equipment
- Fully Degradable Plastic Equipment
- Plastic Recycling Equipment
- Underwater Pelletizing Units

## Why Choose Us?

- Expert design, manufacturing, and assembly with professional pre-and post-sales support.
- User-focused product design and continuous improvement based on feedback.
- 20 years of experience, delivering 300 extrusion units annually.
- Comprehensive after-sales service with timely solutions for all challenges.
- Wide range of equipment: high-filling masterbatch, color master, fully degradable plastic, recycling, and underwater pelletizing units.

## FOCUS ON CAST FILM MACHINE

Always Keep Promise, Extreme  
Credibility and Integrity

### CPE MULTIPLE LAYER CO-EXTRUSION CAST FILM PRODUCTION LINE

- TPU Cast Film Laminating Machine
- PEVA Cast Embossed Film Production Line
- PE Medical Sanitary Cast Film Production Line
- High-transparent EVA Cast Film Production Line
- Three Layers Co-extrusion CPE/ CPP
- Transparent Film Production Line
- EVA/TPU Hot Melt Film Production Line
- PE Breathable Film Machine

#### Production Line Features

1. Screw design with a special mixing function and high plasticizing capacity , good plastic, good mixing effect , high output
2. Optional full automatic adjustment T- die and with APC control automatic thickness gauge , online automatic measure the film thickness and automatic adjust the T-die
3. Cooling forming roll with a special spiral runner design , making sure good film cooling effect at high speed production
4. Film edge material directly on-line recycling, greatly reduce production costs
5. Automatic center rewinding, with imported tension controller, automatic change the roll and cut off, the operation is very simple

## Extrusion line for the production of monofilament

## Extrusion line for the production of PET/PP strapping tape line

With ten years more experience, Changzhou Xinboxuan has been manufacturing a very wide range of extrusion lines for monofilaments and strapping tapes, as well as take-up winders. To design equipment that are customization for our customers, and let you share in our knowledge to accompany you as a producer through the entire process, from planning the line to commission it and from product development to production.

Thus we enable even newcomers to get certificated products of the highest quality available on the market.

Extrusion line for technical monofilament

Extrusion line for brush/bristle monofilament

Extrusion line for bicomponent monofilament

Extrusion line for artificial turf monofilament

Extrusion line for twine, rope, nets and industrial fields

Extrusion line for PET/PP strapping tape

**SEVENSTARS**  
PLASTIC MACHINERY

[www.sevenstarsgroup.cn](http://www.sevenstarsgroup.cn)

## Compactor pelletizing machine

Suitable for all kinds of LDPE, HDPE, CPE, PVC, TPU, PLA, Biodegradable plastic, and etc

## Plastic Shredder

Suitable for Large PVC pipe, hard plastic block, big plastic bucket, plastic chair and furnitures.

### Applications

PLASTIC BOTTLES

PLASTIC PIPES

PLASTIC LUMPS

PLASTIC BUCKET & TRAY

NYLON ROPE

PLASTIC PROFILES

PLASTIC FILM

PP BAGS

## ZHANGJIAGANG SEVENSTARS MACHINERY CO.,LTD.

Factory Add: NO. 1, Red Flag Road, Modern Agriculture Demonstration Park, Zhangjiagang, Jiangsu, China.

Office Add: Room 701, Xinhongji Mansion No.28, Huachang Road, Zhangjiagang City, Jiangsu Province, China.

Tel: 0086-512- 58978656 / 58636995

Fax: 0086-512- 58175992 / 58636995

Mobile/WhatsApp: 0086-13921980514 (Mr Mabo)

OR-A, B, C: High-definition web monitoring system equipped with a 5/10 MP camera, 25x magnification, and clear image quality. Shooting range: 55/100/200 mm, maximum linear speed: 1200 m/min, with automatic cruise function. Suitable for printing, labeling, and other industries.

## WEB MONITORING SYSTEM

### Accessories

Display

Control box

### OR-D

OR-D: High-definition full-frame web monitoring system for wide field of view and long printing plate circumference. Utilizes an 8K line array camera with 25x magnification for clear images. Shooting range: 100mm–2000mm, maximum linear speed: 1200 m/min, DC 24V power supply. Ideal for printing, labeling, and other industries.

## 100% INSPECTION SYSTEM

### OK-4000

O+K defect detection system: Achieves 100% full-width inspection using advanced algorithms and special lighting to detect scratches, stains, dents, bumps, and damages on material.

### Characteristics

100 % full-width observation, covering the boot setup and the entire production process. Based on a high-resolution camera, the picture quality is high-definition. With the help of real-time images, the screen is automatically synchronized, which is not affected by the acceleration and deceleration of transparent materials.

## SOLUTION FOR PLASTIC PROCESSING

### PROVIDING CORE UNIT:

1. Bag sliter
2. Dumping station
3. Loss-in -weight Feeder
4. Weighing hopper
5. Vacuum loader
6. Storage silo
7. Dust collector & Elutriator
8. Quantitative packing scale

### PROVIDING PROCESSING SYSTEM:

1. PVC compounding raw material processing system
2. Masterbatch raw material production system
3. Additive premixing and dosing system
4. Calcium zinc stabilizer batching packaging system
5. Recycled Plastic conveying blending system
6. EVA/POE film production line system

## CHINA INTERNATIONAL PLASTICS EXHIBITION

The 7th

Exhibition Of New Plastic Materials,  
Technologies, Equipment And Products

Guidance: China National Light Industry Council  
Host: China Plastics Processing Industry Association  
Supporter: China Plastics Machinery Industry Association

Undertaker: China Plastics Processing Industry Association  
and CPPIA branches  
Co-Organizer: Jiangsu Plastics Processing Industry  
Association and other local industry associations

## 2024 EXHIBITION HIGHLIGHTS ✓

1000+  
Exhibitors

60000m<sup>2</sup>+  
Exhibition Area

80000+  
Visitors

40+  
High quality activities

- Gather the upstream and downstream of the entire industry chain to jointly build a platform for technology, trade, communication, and services
- More and more leading companies around the world join the exhibition, make the exhibition increasingly internationalized
- Variety of concurrent activities attract high-quality professional buyers
